

SUSTAINABLE PURCHASING POLICY

In line with the sustainable supply approach, our suppliers/solution partners;

- Have Quality Assurance Management Systems, Environmental and Occupational Health and Safety Management Systems, internationally accepted environmental and sustainability ethics/certifications,
- Have no harmful effects on the environment in production and supply, comply with environmental legislation,
- Use/consume resources appropriately without harming natural life and the ecosystem, comply with hunting bans,
- Work to minimize and manage waste correctly, offer less packaging or bulk packaging alternatives in product packaging,
- Be environmentally friendly, economical, local, care about ethical values, use recyclable or recycled materials, organic, bio, vegan, not tested on animals, do not contain harmful chemical components, etc. We give importance to the fact that they offer alternatives,
- They are local and a local production/service provider,
- They are products/services that reflect/promote the cuisine, traditions and culture of our country/region, and we convey this perspective to our stakeholder suppliers. We try to create efficient purchasing opportunities together with our suppliers and aim to reduce the environmental impacts arising from supply processes. We attach importance to this and convey this perspective to our stakeholder suppliers. We try to create efficient purchasing opportunities with our suppliers and aim to reduce the environmental impacts arising from supply processes.
